

## TECHNOTE

[ 30/2014 ]

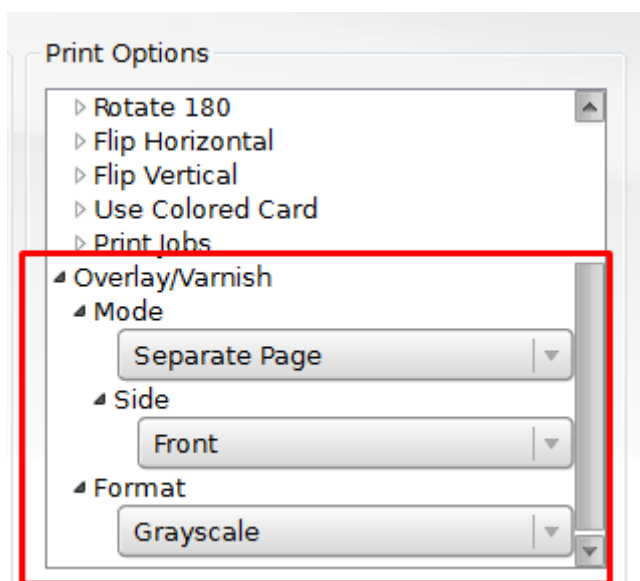

**DATE:** November, 2014  
**AUTHOR:** cardPresso TECHNICAL SUPPORT  
**PRODUCT/AREA:** Print

**Subject:** F Panel with Hiti CS200e

To use the F Panel please follow these steps:

Go to cardPresso's menu **File** -> **Print Settings** and select your printer.

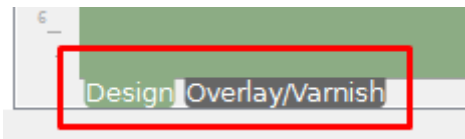

Under **Print Options**, use the settings highlighted in the print screen below:

Please note that the **Side** option refers to whether you want to apply the F panel to the front or back of the card and configure it as needed.

Click OK when the configuration is complete.

The **Overlay/Varnish** tab will now be available at the bottom left corner of the Design area; click it and place the objects you intend to print with the F panel.

Next, return to the Design tab before sending the print job.
